# From the Head of School

“The ladder of success is best climbed by stepping on the rungs of opportunity.”

SRWS empowers the students with knowledge and skills through engaged learning. We provide the students with the right academic rigour along with life skills and endeavour to make them custodians of their own physical, social, emotional and spiritual well-being.

In this highly competitive world, we have adopted a pedagogy that caters to ever-changing challenges in education. We plan to arm the uniqueness of a child with appropriate skills and a wide range of opportunities that would lead to their holistic development by providing a whole range of activities conducted in school.

We treasure dynamism and believe in connecting our learners and providing them with an environment to develop outside of their academic curriculum at school. Our objective is to offer your child more than education for their multifaceted growth.

The school aims to turn the young minds into enterprising and dynamic personalities for their seamless transition into adult life. It is the concerted effort of the family, school and the immediate community of children which help them become productive members of society.

Let's script together a new journey of nurturing our future leaders!

**Ms Sudha Sadangi**

Head of School

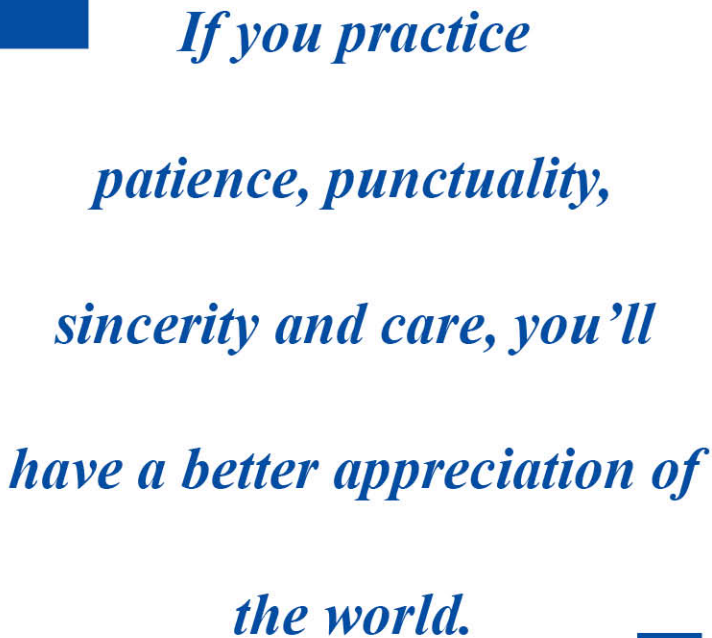

ShreeRam World School

## A Checklist For Parents Remember and Follow

Home is the place where the child learns his/her first lesson and it is here that the foundations are laid to become a good human being. Various aspects of the personality like character building, developing relationship, etc. commence from home. School education indeed promotes these traits and also aids in discovering and nurturing other potentials of the child. In order to secure maximum exposure and progress of the child and evolve him/her as an all-round developed human, a healthy communication, cooperation and coordination between the parents and school is essential.

1. Kindly ensure that your ward carries his/her diary daily to the school. You are expected to go through it everyday to keep yourself well informed with the latest development regarding your child's learning.
2. Parents need to go through the circulars sent by the school and take prompt action on them.
3. Students are expected to appear in all unit tests and examinations as re-test for the same will not be scheduled.
4. Leave record pages must be duly filled in.
5. Parents must attend the Parent Teacher Interaction regularly as it helps to keep abreast with the standard of child's learning.
6. Parents are not permitted to meet their ward or teachers in classrooms. If any parent wants, for whatever reasons, to meet the ward during school hours, he/she should contact the Head of School in her office.
7. Any change in the address or telephone no. must be intimated to the school office promptly.
8. Keep a track of your child's performance in class tests, unit tests and examinations and send the answer script duly signed at the earliest.
9. To inculcate competency in spoken English, all students must converse in English while in school. Parents need to create conducive environment at home to improve their ward's conversational skills.
10. Parents must check their wards if they pick up foul, abusive and non parliamentary language.
11. No expensive gifts are to be sent for distribution on birthdays.

12. Send a healthy and complete meal in a properly packed tiffin box to avoid spoiling of books, etc. in the bag.
13. In case of any change in address or contact numbers, parents need to inform the school in written at the earliest.
14. Parents should provide a supportive, value-based environment to their child's physical, mental and emotional well-being.

*If you are going to  
achieve excellence in big  
things, you develop the  
habit in little matters.  
Excellence is not an  
exception, it is a  
prevailing attitude.*

# Teaching Methodology

“Learning is a treasure that will follow its owner everywhere.”

The teaching methodology: CBIL and VBIL, i.e. Concept Based Integrated Learning and Value Based Integrated Learning facilitates the integration of global ideas and the rich cultural beliefs and values of India. The curriculum is in accordance with the guidelines of the CBSE and is followed through NCERT text books. Sports and physical education have an important place in the curriculum and are compulsory for all the students. Performing and creative arts are as much a part of the student's school life as is academics.

## Academic Approach:

### I. Interactive Approach

The curriculum is integrated so that learning happens primarily through projects, learning centers and playful activities. Skills required to carry out projects are learnt and interests of children are reflected in the work. Interdisciplinary teaching integrates Mathematics, Science, Social Science and Communication Applications.

### II. Differentiated Instruction Strategy

A proactive, flexible and student centered approach is the key to provide instruction that maximizes opportunities for all students to learn. With differentiated instruction, the teacher aims to create learning situations that match students' current abilities and preferred learning styles while stretching their abilities and encouraging them to try new ways of learning. Different types of activities with varying degrees of complexity are provided in order to focus on different learning styles and developmental levels. The quick learners are stimulated by follow up exercises and challenging assignments. Children with different learning abilities are given individual attention, simple instructions and exposure to different learning aids to which they can respond.

### III. Multiple Intelligence Approach

The multiple intelligence classroom acts like the 'real' world. Students become more active, involved learners. When we 'teach for understanding', our students accumulate positive educational experiences and the capability for creating solutions to problems in life. Students become balanced individuals who can function as members of their culture. Classroom activities that cater to the intelligences foster deep understanding about the essential questions of life, such as: Where do we come from? What's the world made of? What have humans achieved? What can we achieve? How does one lead a good life?

#### IV. Home Work Policy

Homework is seen as a valuable resource for teaching, allowing students to practice, and in doing so, learn the unit material. It establishes the habit of working hard and that too regularly. We know that good assignments, completed successfully, can help children develop wholesome habits and attitudes. Homework can help parents learn about their children's education and communicate both with their children and the school, and it can encourage a lifelong love for learning.

#### V. School Script

##### Marion Richardson Script

Marion Richardson was a London School inspector who recommended joining most but not all letters. The letters are less complex than the print/script forms; they do not have the loops and curls of looped cursive.

#### VI. Assessment

Assessment is an integral part of the educational process. In conformity with the new evaluation scheme suggested by the CBSE and National Education Policy (NEP) guidelines, the assessment of the students is continuous and comprehensive. Equal emphasis is given to co-curricular activities along with academics.

#### VII. EVALUATION IN PRIMARY CLASSES (Pre School-II)

This evaluation scheme takes care of the assessment of the all-round development of the child's personality. To evaluate the scholastic areas:

- (a) Three cycles of weekly tests are conducted for classes I and II.
- (b) The absolute marks are translated into grades in the academic assessment.

#### VIII. EVALUATION IN CLASSES III-VIII

The academic year is divided into TWO TERMS—Term I (September/October) and Term II (February/March). The assessment will be done in Scholastic and Co-scholastic aspects. Scholastic aspects will be subject specific areas whereas co-scholastic aspects will include co-scholastic activities for the holistic development of the student.

Each Term will have one cycle of Periodic Tests, Subject Enrichment activities, Project-based activities, Portfolio, Multiple Assessments and Term End Examination. Marks will also be awarded for attendance.

#### IX. ASSESSMENT STRUCTURE FOR CLASSES IX AND XI

The academic session is divided into two terms—Term I and Term II. The assessment will be done in scholastic and co-scholastic aspects. Periodic Tests, Multiple Assessment, Portfolio, Subject Enrichment activities (IX), and Project and Internal Assessment (XI) will be conducted throughout the session.

**X. ASSESSMENT STRUCTURE FOR CLASSES X AND XII**

Term I and two sets of Pre-Board examinations are conducted for classes X and XII. Unit Tests, Mock Tests will be administered throughout the session to give the students practice in taking final examinations of the prescribed syllabus and per the CBSE Guidelines. Practical examinations/Project/Internal Assessments are held all year round in accordance with the CBSE.

Examination	Month
Term I Examination	September-October
Pre-Board Examination	December-January
Board Examination	As per the dates released by CBSE

**XI. ELIGIBILITY CRITERIA**

No student is generally eligible to appear in the Annual Examination who has not put in at least 75% of the actual attendance during the session as per the school calendar.

# Ensuring Personality Development

## Thematic Assemblies

Morning assemblies form an integral part of the curriculum and are observed on themes which are planned at the beginning of the session. Values, festivals and days of national and international importance are celebrated through these assemblies, ensuring the development of intrapersonal, interpersonal and social skills.

## House System

In an endeavour towards grooming of students to inculcate the qualities of confidence, team spirit and healthy competitiveness, the entire school community from class III onwards is divided into four houses

- Nalanda
- Pisa
- Takshila
- Alexandria

## Camps, Excursions and Trips

Adventure Camps, excursions and educational trips are a valuable aspect of a fully rounded programme of development for students which aid in increasing knowledge and appreciation. They are an effective means of motivating students and engaging them in active learning experiences.

## Green Initiatives

SRWS strongly believes in nurturing the environment and preserving it for future generations. The students are sensitized to this pressing need of the hour through projects, street plays and tours which are also community outreach programmes.

## Social Initiatives

Each individual has a responsibility towards his/her family, society, nation and the environment. To inculcate and enhance these qualities, not only students, but also their families are motivated towards community service. Initiatives such as numerous donations, Environment Awareness Campaigns and presentations propose to expose our students to a reality outside their own experience so that they may learn to cope with unexpected difficulties and mature in the process.

## Seminars, Symposia and Workshops

A variety of skills, values as well as important information is disseminated to the students through comprehensive programmes of talks, seminars and workshops. The students are sent out to attend the same at out of school locations as well. A rigorous calendar of in-service training for the teachers ensures their skill building and keeps them abreast with the latest trends in education and pedagogy.

# Communication With Parents

## 1. School Website

The school website ([www.ShreeRam.in](http://www.ShreeRam.in)) is an important and an effective medium to get the latest updates about the school activities along with photographs and videos.

## 2. Almanac

The almanac is a means for the parents to communicate effectively with the school. Parents may use the ruled pages whenever they wish to communicate with the teacher. They must go through their child's almanac every day. Circulars from school are also sent in the almanac. They must countersign all communication after reading them.

## 3. SMS

SMSs are sent regularly by the school to the mobile number of parents. In case SMSs are not being received, parents must check with the school office. They must also ensure that the latest mobile numbers are updated in the school records.

## 4. Parent Teacher Interaction

The school schedules each third and fourth Saturday of the working month as a Parent-Teacher Meeting. It provides an opportunity for parents to meet the class teacher and subject teachers of their ward on a one-to-one basis. It is also an occasion to interact with the Head of School.

Month	PS, PP, VI-XII	I-V

# Child Protection Procedure

Ensuring safety and security of our students is our topmost priority. The following systems have been devised for the same.

## Identity Cards

The students of SRWS are issued a set of two Identity Cards-one for the student and one for the parent. The student must wear the student I-card every day to school. A student will be handed over to the Parent/Guardian/Van Driver only if the Parent's I-card is carried by them.

## Visitor's Badges

All visitors must sign in at the gate and then report to the reception. At the gate, they must collect a visitor's badge which must be worn by them in the school campus. The visitor's badge must be returned to the guards at the school gate when the visitor exits.

## Closed Circuit Television (CCTV) Cameras

CCTV surveillance systems in the school and in the buses are a way of ensuring a safe, secure and healthy learning environment for children. CCTV cameras are of great help to monitor the movement of people visiting the school. The entire school building is under the surveillance of CCTV cameras.

## Provision of First and Fast Aid

Although the school takes all measures and precautions to ensure the physical safety of the students, a well-equipped medical centre and a trained nurse is available to ensure first and fast relief in case of any emergency. Depending on the crisis, the student may be taken to the nearest multi-speciality hospital for appropriate medical attention. Parents must fill the medical information form provided in the almanac at the beginning of every session to facilitate timely action.

## Emergency Procedures

In the event of any emergency, a continuous alarm is sounded. Teachers along with their classes vacate the classrooms as per evacuation routes already planned and put up on the School Notice Boards. Regular Mock Evacuation Drills are conducted to keep the students aware of the systems.

## GPS Access

At SRWS, we have GPS vehicle tracking systems installed in all the school buses. Such a system helps in ensuring the safety, better management, control and monitoring along with the other necessary checks. The school and the parents can monitor the location of the school buses by simply sending an SMS.

## School Bus Management System

RFID school bus tracking system generates a message to the parents' phone through the School Buddy App informing them that their child has boarded the bus/reached the school. It is a unique comprehensive system for managing the daily school bus operation that links the school, the parents and the buses into one powerful system.

## Mode of Fee Payment and Other Charges

1. The school accepts fees on monthly basis. The parents who desire to make payment on quarterly, six monthly or yearly basis, may do so as per their convenience. **The school fee is to be paid regularly by the 10th of the month in which it becomes due.** If the 10th of the month in which the school dues are to be paid happens to be a holiday, then the payment is to be made on the date following the 10th day.  
In case the fee is not deposited by the due date, the fee will be collected with late fee @ Rs. 20/- per day from the 11th of the month, till the end of the month. If the school fee is not paid by the end of the month, the name of the child will be struck off from the school roll and re-admission will be at the discretion of the Head of School and on the payment of the re-admission fee.
2. The school fee can be paid either through online mode or by cheque (duly filled as per the instructions given on the fee requisition slip).
3. Fee cheques may be dropped in the drop box by parents/students (1st to 10th of every month) (24x7).
4. Cheque dishonour charges @ Rs 300/- per cheque with late fee (if any) will be accepted only in cash.

# No Prayer Ever Goes Unheard

by Helen Steiner Rice  
(slightly edited/abridged)

Often we pause and wonder....

When we kneel down to pray

Can God really hear....

The prayers that we say?

And as we continue....

Our burden seems lighter

Our sorrow is softened...

And our outlook is brighter.

For though we feel helpless....

And alone when we start

Our prayer is the key....

That opens the heart.

And as our heart opens...

The dear Lord comes in

And gives us new strength....

With the light within.
